

**Ranking of Recipients of Federation Account Allocation January to June 2017**

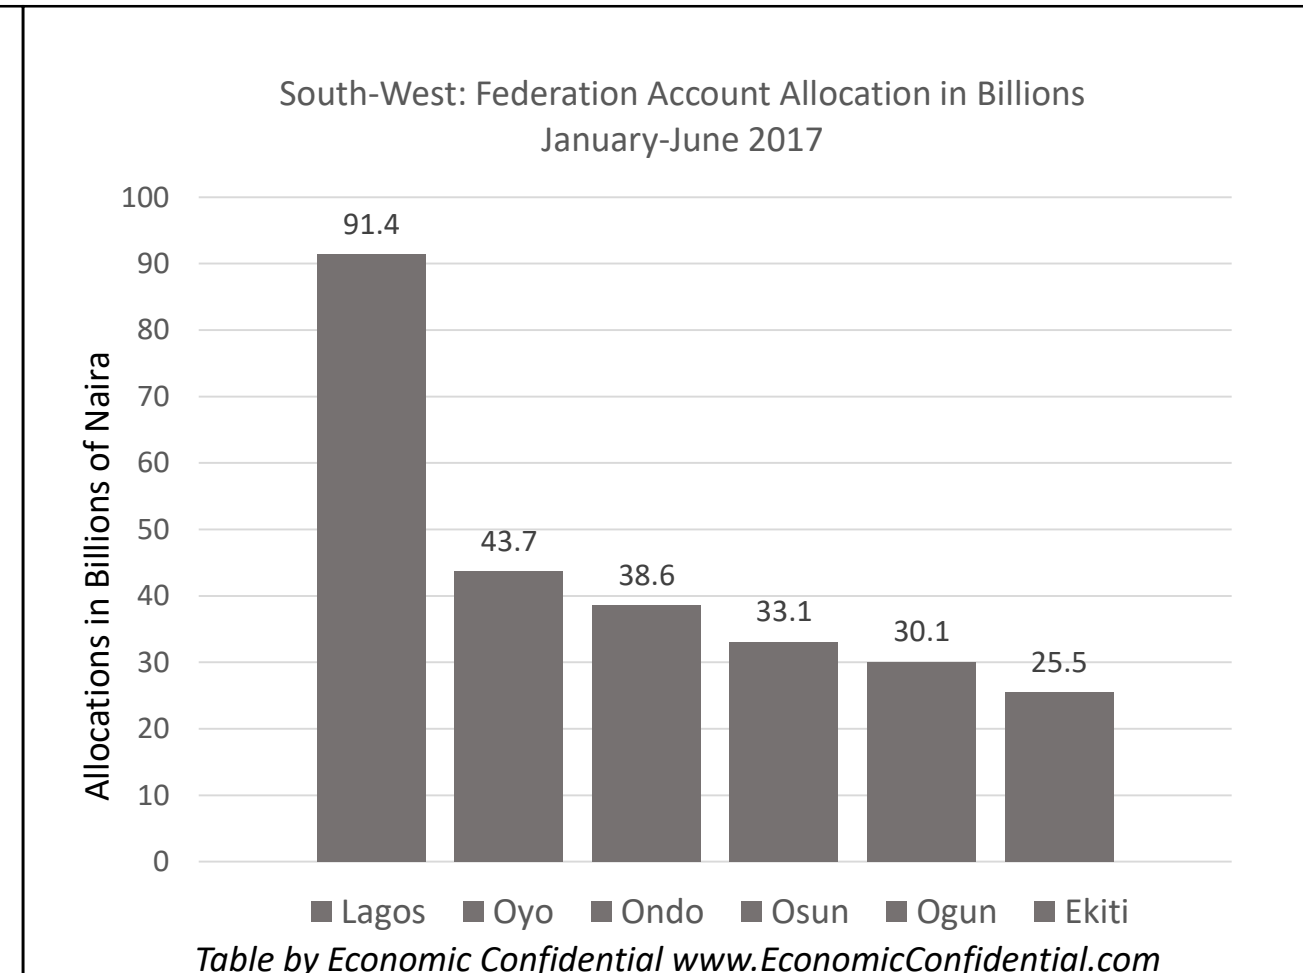

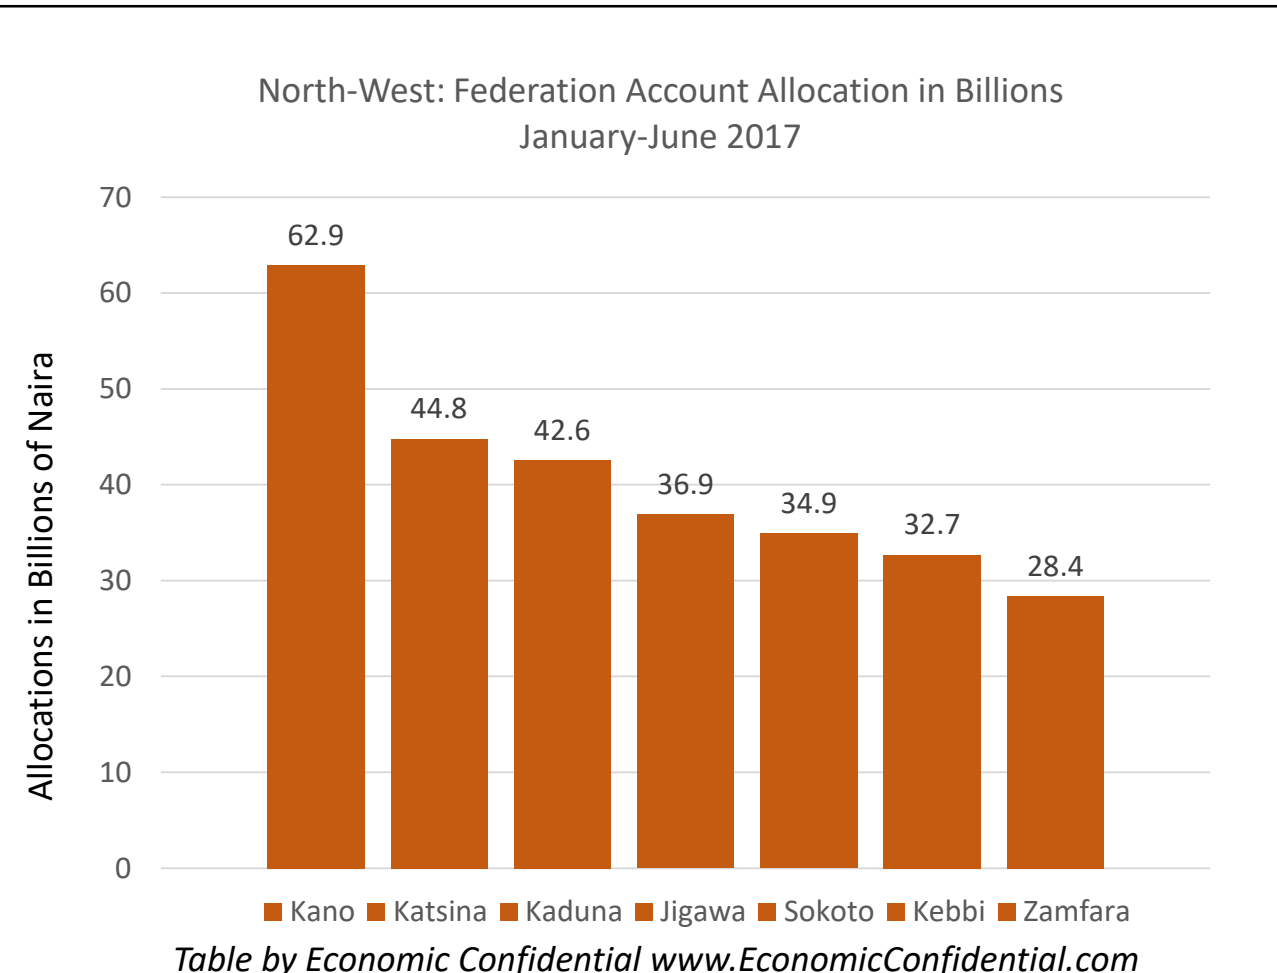

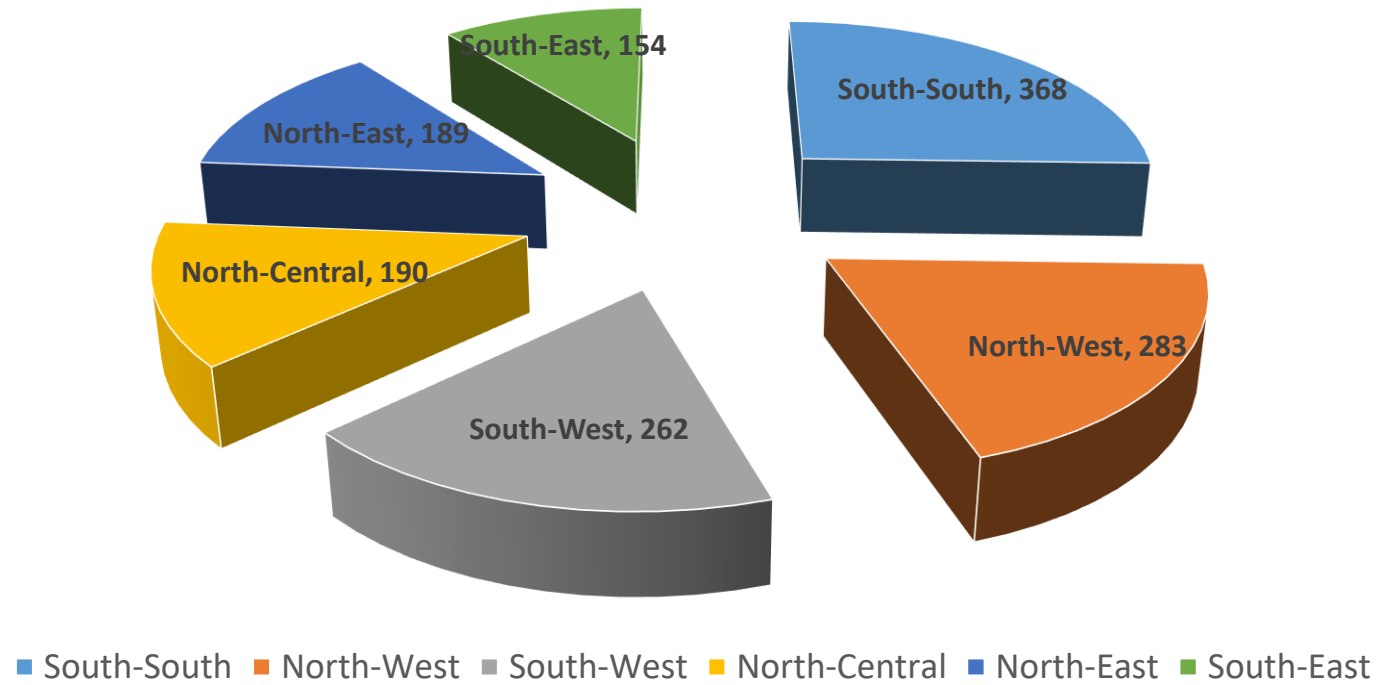

A total sum of N2.5 trillion was shared to the tiers of government in the first half year of 2017. The Economic Confidential provides the total sums of disbursements to Federal Government (FG), States including their respective local government councils from January to June 2017. The disbursements were confirmed after the monthly meeting of the Federation Account Allocation Committee (FAAC). While Federal Government received N1trillion, the states and their local government shared the balance in the following ranking
