

# AS CAPTAIN OYETOLA SETS SAIL TO DELIVER THE PROMISE OF OSUN

As our ship MV Osun State begins a new course November 27, Captain **Gboyega Oyetola** has a clear compass set north to 2022. That compass is *IleriOluwa*, the promise of God for Osun State.

The fundamentals are a sustained positive trajectory for the state, a new beginning and expansion of the scope and depth of development.

We believe Captain Oyetola, a man of integrity tested in the forge of loyalty, to deliver on his critical promises.

He will work in five main areas of human capital development, moving the State to the Top 20 initially and Top Ten within four years; infrastructure development - roads, bridges, waterworks to connect our people; value-added agriculture; healthcare and security.

The promise of Osun is a state building on its internal capacity and external linkages to deliver a rewarding life for the greatest number.

Go forth courageously, Mr. Governor!

May the stars align in your favour.
